

# FACTORY

## Rebecca Drolen

### Feb 15 - April 7

*Factory* explores a fictional setting where hair and other features are added to the body as a means of protection, defense, or disguise.

Drolen's photographic work explores portraiture and constructed narratives, using the element of truth that a photograph carries to validate scenes. An exploration of how individuals assemble their identity is paramount to her work.

### Artist Talk: Feb. 15, 5:30 pm

Join us at the museum to hear visiting artist Rebecca Drolen speak about her work. Free and open to the public.
